

# BULKHEAD SYSTEM

Available in	Reverse Cycle (Heating & Cooling)
Capacities	2.4kW, 3.4kW, 5.0kW, 6.0kW
Refrigerant	R410A

The Bulkhead range is the ideal choice for air conditioning areas where a discreet installation is preferred.

The indoor unit fits flush into the ceiling with only the suction air and discharge grilles visible inside your home and leaving maximum floor and wall space for furniture, decoration and fittings.

The Bulkhead range is truly discreet with whisper quiet operations to ensure limited impact to internal room aesthetics and acoustics.

<u>Operation Manual</u> (https://www.daikin.com.au/sites/default/files/daikin-ducted-air-conditioning-Bulkhead-System-FDXS25-60LVMA.pdf) <u>Warranty info</u> (/warranty/)

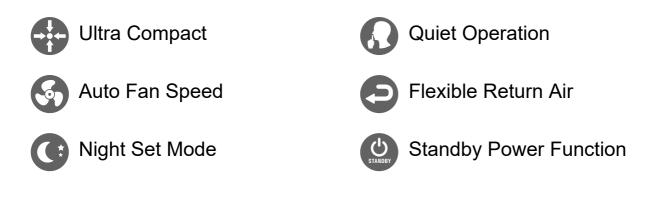

All Daikin air conditioners exceed MEPS requirements, in line with Daikin's commitment to providing energy efficient, quiet, simple to use and reliable air conditioning solutions.

Minimum Energy Performance Standards

## **Key Features**

It's the unique features of Daikin products that makes us the world leader.

### Controllers

ON OFF TIMER		

# Wireless Remote Controller (BULKHEAD)

Daikin's 5-year parts and labour warranty applies to split, multi split and ducted air conditioners purchased and installed in homes across Australia

5 Year Warranty

## BULKHEAD SYSTEM Technology

#### SAW EDGE FAN BLADE

The addition of a saw tooth edge at the rear of the blade smooths airflow over the blade surface, reducing turbulence which in turn results in a quieter, more efficient means of delivering comfort to your home.

#### Compressor

Daikin's swing compressors are quieter and more efficient than conventional compressors, thanks to their high pressure dome construction and the usage of high pressure lubrication oil.

### Reluctance DC Motor

The compressor is equipped with a Reluctance DC Motor. These motors utilise the magnetic torque or neodymium magnets in conjunction with reluctance torque, resulting in more energy efficient operation.

#### INVERTER TECHNOLOGY

The Inverter PCB works like the accelerator of a car, gently increasing or decreasing power. This ensures your desired temperature is reached quicker and steadily maintained without fluctuations.

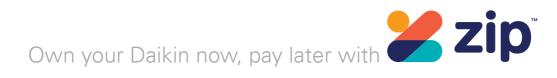

### **Technical Specifications**

### Available Options:

System:
---------

Capacities:	2.4kW, 3.4kW, 5.0kW, 6.0kW
Indoor Type:	Bulkhead
Power Supply:	1 Phase, 220-240, 50Hz
Refrigerant:	R410A

★ Show Full Tech Specs (#).

### **Ducted Systems**

A Daikin ducted system provides discreet air conditioned comfort throughout your entire home. It can be installed in a new home or tailored to suit an existing one, and once installed, only the controller, the return air and discharge grilles are visible inside your home. BULKHEAD SYSTEM | Daikin

## Why choose Daikin?

# Experts in Air Conditioning

As specialists, air conditioning is all we do. We take pride in designing products that provide clean, efficient, and superior comfort in the places we live, work and play.

## Specialist Dealer Network

With over 450+ strong dealer network, Daikin is available through our Specialist Dealer network, who will assess, plan and install the right air conditioning solution for your home.

# Quality After Sales Support

Sensitive Choice® Approved Our comprehensive range of services from our dedicated after sales support team will ensure the long term durability and keep your Daikin running smoothly for many years to come. Daikin's split system air conditioners are approved by the National Asthma Council Australia Sensitive Choice® program, and are the only split systems that carry the blue butterfly symbol.
