

## Water Cooled Chillers

Daikin has a broad range of water-cooled chillers with a variety of compressor types to suit your specific application requirements. Scroll, Screw and Oil-free Magnetic Bearing Centrifugal compressors are available with capacities ranging from a tiny 13kW chiller to a much larger 9,450kW. There is a quiet, efficient, reliable Daikin water-cooled chiller for the flexibility to match your application requirements.

## EWWD-VZ Water Cooled

The NEW water cooled chiller with an inverter driven R134a screw compressor

### Features

- Highest efficiency in its range
- Small footprint, low noise and wide operating range, the VZ chiller is suitable for a variety of applications
- Future ready, using the best refrigerant today and ready for the new refrigerants of tomorrow
- Available in single circuit or dual circuit configurations
